

# The Soulphoenix

## SWEET REUNION

*A travers ces six compositions originales, nous parlons de la nostalgie, cette échappatoire tant précieuse qu'éphémère. Nous parlons également d'écologie, exprimons notre aspiration à un monde meilleur, à un retour aux choses simples de la vie, qui finalement nous rapprochent et nous suffisent.*

*A travers cette image, nous vous emmenons sur le chemin de notre enfance jusqu'à aujourd'hui. Nous vous invitons à prendre de la hauteur sur les aventures du passé et imaginer au mieux celles qui sont à venir.  
Végétalisons-nous en musique.*

## SWEET REUNION

Your face is a painting  
Where the sun can finally draw  
Your hair is moving  
Now the breeze can blow through it

This is real you can dive in waves  
Walk in the woods  
Catch these simple little things  
Sweet simplicity

You can hear the birds singing  
You can hear your friends laughing  
Out of quarantine  
Sweet reunion

## JUNGLE CITY

I was out and about  
To buy some bread and a little pie  
This little walk made me think  
How would it be if this city became a jungle  
Now that Nature reasserts herself  
Why couldn't all these huge buildings  
Be covered with ivy?

I wish I could sing along with King Louis  
Or see a giant elephant walking next to me  
Maybe dance with a funky penguin  
For a better contact

Let's go to work with two bare feet  
Feeling the grass all over the street  
This little path makes me think  
How would it be if the bridge went underwater  
Now that Nature reasserts herself  
We could dive downtown with Nemo  
Before getting a drink in a tree

Humans can't see  
The richness they have already  
They could be friends maybe  
With every being

# SUMMERS FLY

After a year of hard work  
Here are the long awaited vacations  
Pale skin of isolation  
Will be golden by the summer sun

Two months of fun  
Don't need to recite anything more  
Stop getting up at eight 'o'clock and sleep  
longer  
Let the worries go

Hurry up, it's crazy how summers fly  
Too much fun, not enough time

Let's go swimming now  
Put bad school moments in a dive  
Get the toys under water  
Impress the girl, she's sound

Build a shack  
To avoid the holiday workbook  
Start to open the very first beer, first hangover  
With friends and the new girl

I met this girl just yesterday  
Down by the river of the camp, yeah  
All my friends told me to hit on her  
To take her to the ocean for the whole summer  
Maybe begin a cool story  
So light and so easy  
But then she said sadly: "I'm going back to the  
Netherlands"  
Summer loving is just a path  
Where everything goes away too fast  
Hoping to find her again  
When I grow up I'll feel the pain  
Or maybe forget it and find an exit  
Thinking of the next day  
So my bro told me: "You'll meet someone next  
year"

## PURPLE AND GREEN

This is a kind of a peaceful age  
Ephemeral but intense  
Putting a smile upon our face

Grab a walkman and tapes  
Before we take a walk downtown  
Buy some rolling gum

This is the video games age  
But still we play outside, feeding our  
imagination  
Making woods and plains our magic  
fields

Purple and green  
Everything is a reverie  
Purple and green

Watching cartoons before school  
To keep this lack of care  
Wearing scratched sneakers, so  
proud to have them, yeah

Childhood softened by all those  
things  
Especially Hogwarts stories  
It's still time to get the letter

Elephant balls or jelly beans  
We have to choose before the bell  
rings  
Or can we find a trick?

## GAMES

Let's go now  
Racing Donkey round the track  
Going fast with the star  
Unstoppable, keeping bananas for  
the last lap  
Avoid the blue shell

Invincible  
In games but also in real life  
Giving trust  
Unreachable, it's not the moment to  
fall  
Want to jump and fly

Games are a way out  
To our generation  
Where we can discover  
Another world so vast  
Games give us another life  
Full of creation  
It's easier to flee hard reality

"Dinner's ready!"  
Not now please  
I'm still on Rainbow Road  
Unreachable, it doesn't have any  
secrets any more  
I'm going to win

Now my bro  
Wants to play, have to switch  
Change the game, "come on, it's my  
turn!"  
Let's go now  
Under the sun of San Andreas  
Steal a car
